

		w/o reject	w/ reject
h_1	r	-	0.2
	s_1	0.5	0.4
	s_2	0.5	0.4
h_2	r	-	0.6
	s_1	0.75	0.3
	s_2	0.25	0.1

The diagram illustrates a transition between two states, h_1 and h_2 , across two scenarios, s_1 and s_2 . The values in the cells represent probabilities or weights. The cells for h_1 are light blue, and the cells for h_2 are orange. The values for s_1 are bolded. Two curved arrows indicate transitions: one from (h_1, s_1) to (h_2, s_1) and another from (h_2, s_1) to (h_1, s_2) .
